**ALLCLEAR Mosquito Mister Introduces 100% Natural Mosquito Control and
New Deck-sized Mister**

Safe and Effective Formula Kills & Repels Mosquitoes for Hours!

DALLAS (April 28, 2010) – Outdoor mosquito control has never been safer, faster or easier. This season Universal Pest Solutions, LP introduces a new ALLCLEAR® Mosquito Mister ideal for decks, patios and smaller yards and an 100% pure, plant-based NATURALS™ Concentrate (www.allclearmister.com). The NATURALS patented formula harnesses the power of the lemongrass plant to safely kill and repel mosquitoes, gnats, biting flies, and other nuisance insects. Combined with the proven power of the ALLCLEAR Mosquito Mister technology, together they are the fastest way to safely clear yards of mosquitoes and other biting insects.

Based on professional mosquito control technology, but designed for backyard convenience and protection the ALLCLEAR Mosquito Mister protects areas up to 2,000 sq. ft. from mosquitoes and other biting insects. To operate, just wheel the ALLCLEAR Cordless Mosquito Mister into the desired area of protection and activate with a remote starter. The Mister dispenses a three-minute atomized mist solution of water and ALLCLEAR Concentrate. The mist kills mosquitoes and other biting insects on contact and then creates an invisible veil of protection from mosquitoes, including the Culex species that may transmit the West Nile Virus.* When used with NATURALS Concentrate, one three minute mist application can protect for as long as 2 hours and can be safely re-misted as often as needed. Other ALLCLEAR Concentrates deliver as long a 6 hours protection with one mist application.

“We offer a variety of effective and responsible insect management products that address many mosquito control scenarios,” says Jim Mills, president, Universal Pest Solutions, LP. “Our new, compact Mister can be easily integrated into a number of deck, patio, and smaller yard settings. The 100 percent NATURALS Concentrate is a perfect choice for those looking for alternative insect control formulas.”

The ALLCLEAR Cordless Mosquito Mister product line also includes the ALLCLEAR Mister PRO which protects areas up to 4,000 sq. ft. and is ideal for medium to large yards and pool and play areas. Two additional ALLCLEAR Concentrate options are Botanical Pyrethrum Concentrate made from dried chrysanthemum flowers, effective for up 4 hours protection, and a Synergized PLUS Concentrate that contains permethrin, the synthetic equivalent to botanical pyrethrum, effective for up to 6 hours protection. These two concentrates are EPA-registered for use with the ALLCLEAR Mosquito Mistlers.

Proven Results:

In tests conducted by independent entomologists in backyards throughout the U.S., the ALLCLEAR Mosquito Mister and ALLCLEAR Concentrates reduced biting mosquitoes by more than 90% in areas up to 4,000 square feet for as long as six hours.*

“The backyard studies conclude that the ALLCLEAR Mister is very effective at controlling mosquitoes in designated areas for long periods of time,” asserts Bill Donahue, Ph.D., CEO/Laboratory Director, Sierra Research Laboratories. “Unlike backyard mosquito control products that can take weeks to see results or other options that may operate when not really needed, the ALLCLEAR Cordless Mosquito Mister technology affords users immediate insect relief when and where they need it most.”

The ALLCLEAR Cordless Mosquito Misters and ALLCLEAR Mosquito Mister Concentrates are available nationwide at Ace Hardware, True Value, Meijer, independent hardware stores, and online at www.frontgate.com. The ALLCLEAR Mosquito Mister has an MSRP of \$299.99; PRO model has an MSRP of \$499.00. The ALLCLEAR Concentrates provide up to 25 mist applications per bottle and have an MSRP of \$29.99 per bottle. For more information visit www.allclearmister.com.

* Based on tests conducted by independent entomologists for Universal Pest Solutions using ALLCLEAR Mosquito Mister PRO and ALLCLEAR Mosquito Mister Botanical and/or Synergized PLUS Concentrate.

About Universal Pest Solutions, LP
